COURSE DESCRIPTION: This course is designed to place emphasis on field experience and planning for teaching and evaluating physical activity in middle/secondary school physical education. Focus is on implementing appropriate movement and fitness experiences for middle/secondary school learners from various backgrounds with a reflective and interactive emphasis. This course involves field experience in a public school environment for at least 30 hours.

COURSE OBJECTIVES: Competencies within the course should prepare candidates to:
1. plan and implement effective physical education curriculum in a public school environment.
2. describe the place of physical education within the middle/secondary school curriculum and scheduling, length of instructional units, and types of activities.
3. develop and use assessment data to reflect on student learning.
4. demonstrate professional commitment through membership and involvement in professional organizations and other enrichment experiences.

DESCRIPTION OF PROJECTS:
1. **Field/Lab Participation**: contribution to weekly Lab activities are expected and each candidate will be held responsible for ALL lab assignments. The use of electronic communications will be required.

2. **Lesson Plans**: Candidates will be required to analyze and implement a program (at least two lessons) for learners in Middle/Secondary schools.

3. **Field Experience**: All candidates are required to do observation/participation/teaching activities in a 6-12th grade public school. Candidates are required to do at least 15 sessions in middle and 15 sessions in High school observation/participation/teaching activities which may include planning and implementing a program in a full inclusion setting. **Candidates must also do five (5) class observations in a Health Instructional setting.** Candidates are required to keep individual logs of the events [See log outline] that occurred during each session of their field experience. **All work must be completed by 3-29-11.**

4. **Field Experience Logs**: During the semester, each candidate must complete a log for each lab (total of 10) session attended. **Logs are due each week.** Each log should be typed and on a separate page using the assigned class format. **Logs will not be accepted late.**
