<tr>
<td>Before beginning full time teaching</td>
<td>Complete your <strong>Long Range Plan</strong> in accordance with ADEPT training information. See <a href="http://ehhp.cofc.edu/CPEval/">http://ehhp.cofc.edu/CPEval/</a> for assignment description and rubric. This must be completed and fully approved by your college supervisor BEFORE you begin your full-time teaching. Do not work on your long range plan while you are observing. This plan should be prepared when students are not in the classroom. Consult with your co-op teacher about information relating to S.C. Teaching Standards, school and classroom procedures and policies and any other information pertinent to this classroom. Your teacher may share his/her plan with you, but do not copy the entire document. Write as much information, such as the class-student profile information, as you can in your own words.</td>
</tr>
<tr>
<td>Prior to teaching</td>
<td><strong>Daily lesson plans</strong> (part of short-range plans). Plan sequence: Standard, Objective, Assessment, Materials, Procedures and Accommodations. Have plans available to your college supervisor as directed. Your teacher will set a time in the preceding week to go over the plans and approve them for the coming week. One copy of the week’s plans should always be available in your notebook for teacher, principal, or supervisor to check. Note: You must show ability to plan on your own with little dependency on the co-op teacher. However, your teacher will continue to read and approve your plans a week in advance of implementation. <strong>Candidate Work Sample</strong> (includes short-range plans). See CP Handbook and <a href="http://ehhp.cofc.edu/CPEval/">http://ehhp.cofc.edu/CPEval/</a> for assignment description and rubric. This plan must be written and approved by your college supervisor BEFORE the first lesson of the unit is taught. Place these plans in your notebook.</td>
</tr>
<tr>
<td>Other</td>
<td><strong>Instruction with visuals and objects</strong>: Make and use at least two bulletin boards or learning centers. These may be in the classroom or on an assigned school hallway board. Coordinate with cooperating teacher if she/he has a special topic to be developed. Such teaching aids should always be related to present or immediately upcoming instruction. They may be visual, tactile and/or interactive. However, they must always be instructive. Be sure your college supervisor actually views them or provide a photograph in your notebook. <strong>Family Involvement Project</strong> - See <a href="http://ehhp.cofc.edu/CPEval/">http://ehhp.cofc.edu/CPEval/</a> for assignment description and rubric.</td>

</tr>
<tr>
<td>Planning and Preparation</td>
<td><strong>Personal Preparation:</strong> It is of utmost importance that you know your subject matter. You are expected to study and know the material in advance, not only the material in the text but also additional teacher information and information from your own research. You are expected to bring in additional sources of information for your students such as internet searches, books, pictures, teaching kits, videos, interviews, hands-on activities, etc.</td>
</tr>
<tr>

<td><strong>Handwriting Preparation:</strong> Become proficient in writing on the overhead, chart paper, and whiteboard in a clear manner (cursive and/or manuscript, depending upon the grade you are teaching) In the lower grades when handwriting is taught according to a specific program, prepare a sample for your college supervisor and place in your notebook or as your college supervisor directs.</td>
</tr>
<tr>
<td>Instruction and Assessment</td>
<td><strong>Balanced Learning Experiences:</strong> In preparing and implementing of learning experiences, incorporate knowledge of curriculum, instruction, human development, assessment and differences that affect learning.</td>
</tr>
<tr>
<td></td>
<td><strong>Technology:</strong> Make effective use of all audiovisual and other technological resources that are available to your classroom and school. Even if your cooperating teacher does not use available technology, it is essential that you do. Don’t be afraid to ask for help and make time to practice use of these tools if needed before using them with students.</td>
</tr>
<tr>
<td></td>
<td><strong>Outdoor activities and field trips:</strong> The use of outdoor learning activities for your students is encouraged subject to the guidance and approval of your cooperating teacher. Field trips are encouraged when feasible. Take as much responsibility in planning any details of a trip taken during your internship as your teacher feels appropriate. All must be done under the direct supervision of you co-op teacher. Always include pre- and post-learning experiences related to the trip.</td>
</tr>
</tbody>
</table>
**Arts integration:** Incorporate music, dance, art and drama frequently in cognitive, affective and psychomotor experiences.

**Assessments and Record Keeping:** Formative and summative (to include short range plan) assessments should be planned and implemented. Each should be carefully analyzed to determine the next instructional step such as re-teaching, moving to the next concept or skill, or individualizing instruction and progression into the next instructional step. You are responsible for keeping testing and progress records as directed by your co-operating teacher and college supervisor. Keep each of your assessments in your notebook along with the related plan.

**Consultation & Collaboration Outside Classroom**

**Parent-Teacher Interaction:** If possible, observe and participate under close supervision of co-op teacher in at least two individual parent-teacher conferences. Be sure to obtain permission of the parent. Remember that confidentiality is critical. Attend all PTA, Open House meetings and other family/school events. Document and reflect on the experience.

**Collaboration and Teamwork:** Observe discussions, evaluation and special needs conferences (i.e. Reading Recovery, resource gifted and talented, assistance teams, IEP’s) conducted by professional staff members to determine placements and/or special assistant to students. Note the role of the classroom teacher. Document and reflect on the experience if attended.

**Teacher-work days, grade level planning, and in-service workshops:** You are to attend all with your co-op teacher. Document and reflect on all activities.

**Self-Evaluations and Reflections**

Keep a daily journal noting important ideas, events and reflections. This up-to-date journal should be available to your college supervisor during observation and visits.

Self-evaluations within regular observations and assessments: Each time you are evaluated you will be expected to write a self-evaluation or reflection.

Prepare and present an electronic portfolio that represents your knowledge, skills and dispositions. Evidence from your clinical practice will be used in this portfolio, as well as assignments completed in previous semesters. The portfolio should include your bio, philosophy of education, classroom management plan, resume, candidate work sample, long range plan, sample weekly lesson plans, family involvement project, and other professional work samples (artifacts).

**Notebook and Journal**

Maintain a Clinical Practice Notebook to document and reflect on your experiences. The notebook should be organized, be readily available to the college supervisor during all classroom visits and include:

- Copies of schedules and calendars
- Observation Report (from first two weeks)
- Handwriting sample and photo documentation of learning centers/bulletin boards created
- Long Range Plan and other major assignments (drafts in progress and final copies)
- Lesson plans and assessment info (current and past)
- ADEPT evaluations conducted by cooperating teacher and supervisor (and any other informal feedback provided at other times)
- A seating chart for each class (if names are not labeled on desks/tables)
- Reflections/journal entries (formal and informal) - Keep a daily, dated, reflective log of your experiences, observations, and reactions. Do not repeat material from your lessons plans in your journal. The purpose of the journal is to assist you in developing reflection as a part of good teaching. Include self-evaluation of lessons. The journal should be more than a list of day, time and activity information. Include your thoughts and the reactions of the students to lessons. The journal is designed to help you assess your strengths and areas where you need greater effort.

**Assessments of Clinical Practice Intern**

The college supervisor will formally observe the intern at least four (4) times, and the co-operating teacher will formally observe the student at least four (4) times. Each time the observer will assess performance using the ADEPT observation form. You must access the
observation evidence online and submit an acknowledgment and reflection for each observation.

Your third ADEPT observation must incorporate a 10-15 minute video of your lesson. This method is significant because you can reflect upon your own teaching style, mannerisms, and classroom atmosphere. This videotape will be viewed by the cooperating teacher and supervisor and will be evaluated using the ADEPT form.

Midterm and final evaluations will be made on each intern. Co-operating teacher and college supervisor will collaborate and conference with the intern using each document.

While the co-operating teacher and the college supervisor collaborate on much of the evaluation process, the college supervisor has the responsibility for determining the final grade assigned to the intern.

**LEGAL NOTICE**

You are prohibited by South Carolina Law to serve as a substitute teacher. Even if you feel confident enough to serve in this position, should your cooperating teacher be absent for any reason, state law and College of Charleston policy forbid your assuming this role. You must be under the supervision of a certified teacher at all times.

**Suggested Plan for Assuming Fulltime Teaching Responsibilities**

Teaching full-time for an extended period of time is the culmination of the clinical practice experience. What follows is a suggested plan for sixteen weeks of clinical practice with a six-to-eight-week full-time experience. It may be adjusted based on classroom, co-operating teacher, and intern needs. The co-operating teacher and college supervisor will make adjustments as needed.

<table>
<thead>
<tr>
<th>Week</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>The road to full-time teaching begins the first day as you build rapport with the students, learning their names and talking with them to find both their academic and personal strengths. You should also learn about their personal interests, i.e. sports, music lessons, hobbies, etc. Take your direction from your cooperating teacher, discuss what is planned, ask if you may assist, and reflect on what you see. It is most important that you observe your teacher carefully during this time.</td>
</tr>
<tr>
<td>2</td>
<td>By the beginning of this week you will be on the way to developing your long-range plan and designing an overview of what you will be doing for the full 16-week period. During this second week you will continue recording your observations and assisting your co-op teacher as directed.</td>
</tr>
<tr>
<td>3</td>
<td>In this week you should take over instruction of one lesson/instructional block, the writing of daily lesson plans for the lesson and one non-instructional responsibility.</td>
</tr>
<tr>
<td>4</td>
<td>This week you are well into phase-in, and should be handling at least two complete lessons/instructional blocks and other non-instructional activities each day.</td>
</tr>
<tr>
<td>5</td>
<td>Starting with the fifth week you should have assumed most of the teaching responsibility for the class and all non-instructional activities. Your cooperating teacher will be with you most of the time, but as weeks progress, s/he may be away from the room for various periods of time. Continue to plan and work with the cooperating teacher and remember that s/he is available to assist in small group or tutorial activities that may be helpful to you and the students.</td>
</tr>
<tr>
<td>6-14</td>
<td>Full time teaching including all lesson plans. Co-op teacher will act as a consultant for your planning and approve all plans the week before they are to be implemented. Most of the planning will be based on your ideas. Co-op teacher will gradually spend more time outside of the classroom, or at least out of view of the students.</td>
</tr>
<tr>
<td>14-16</td>
<td>You will begin to return the class to the cooperating teacher's leadership, to be completed by the thirteenth week. This ongoing work is to be planned with the cooperating teacher to insure a smooth transition that best serves the children. As you give back teaching times to your cooperating teacher, you will schedule observations of other teachers at the same and different levels as well as those with special teaching responsibilities. Document and reflect on these experiences.</td>
